Languages/Tools/Platforms: C, C++, ReactJS, JavaScript, NodeJS, HTML, CSS, MySQL, GitHub, GitKraken, yarn, plop, Unix, MacOS, iOS, Windows, Balsamiq;
Business Background: Adaptability, Communication, Management;
Aptitudes: Foresight (bigger-picture thinking), Ideaphoria (flow of ideas);
StrengthsFinder: Input, Learner, Responsibility, Individualization, Activator

Work Experience

CDK Global | Software Development Intern | June - August 2019

- Performed backend development on Global Content Management teach in Functional Services department to achieve a fully integrated serverless backend,
- Created an API Gateway adapter for communication with internal and external APIs,
- Worked with AWS CLI, AWS Lambda, and Terraform for creating and maintaining a DynamoDB database, as well as AWS S3 and IAM interaction,
- Other tools used: JIRA, Confluence, Visual Studio Code.

CBT Nuggets | Web Development Intern, Marketing | January – March 2019

- Delivered email templates structured for Email Marketing Team to propagate, for successful transition from Salesforce Pardot to Salesforce Marketing Cloud,
- Created dynamic Lander pages for logged out visitors of www.cbtnuggets.com,
- Member of workplace React Guild and QA Guild for ongoing learning opportunities.

Projects

Craigslist Redesign www.elizabethpremer.com/projects/hci-portfolio.html

- I decided to redesign the usability-phobic home page of Craigslist to provide more clarity and ease of use for users who otherwise complained
- Interviewed CL users and walked them through both low and high fidelity prototypes

Web Design www.elizabethpremer.com

- Developed and maintain my own professional portfolio website to showcase current and past projects.

OTP – One-Time Pad <https://github.com/epremer/otp-tcp-api>

- A set of C programs utilizing TCP sockets API to teach myself the fundamentals of: network programming, concurrent processes, enc/decryption, key generation, etc.

Database/Web Design <https://github.com/epremer/DatabasesWebsite>

- I created and maintained a website and database to learn the various aspects of database management, utilizing NodeJS, JavaScript, Handlebars, MySQL, HTML/CSS.

Activities:

OSU Clubs: Linux Users Group, Robotics, SWesters, Women in Leadership (WIL)

Organizations: Society of Women Engineers: Officer of Student Engagement

Additional Skills: I owned and managed a small massage therapy business for 6 years.
